OPERATİONAL EXCELLENCE BOOTCAMP

Course CM2-15

Operational Excellence Bootcamp

Reshaping Legacy Processes and Systems through Business and Digital Transformation

IpX
Institute for Process Excellence

This 2 day course is an overview of CM2.

The format was previously the same as used in the courses required for certification.. About half of the 166 pages are full-page graphics taken from the most powerful illustrations from all course materials. Each illustration is backed up by a page of key points.

This course provides an in-depth review of the IPE/CM2 model for process improvement and enables each attendee to gain a better understanding of the strengths and weaknesses of their own processes.

After discussing the pro's and con's of each key point with the other attendees, those who complete this course will know precisely what they need to do.
